3rd Franco-Japanese TR (translational research) Initiative
on October 27th (Monday), 2008
at Inamori Hall, Kyoto University Graduate School of Medicine (KUGSM)

Moderator: Stephane Roy, Shuji Higuchi,

09:30-09:40 Welcome and Opening Remarks
   Kazuwa Nakao, Director, Translational Research Center,
   Prof., Dept. Medicine and Clinical Science, KUH, KUGSM, KU, Japan
   Fabien Calvo, Prof., Director, Cancer Institute, INSERM, Paris, France

09:40-10:05 Ken Ebihara, Associate Prof., & Kazuwa Nakao Prof.
   Dept. Medicine and Clinical Science, KUH, KUGSM
   Leptin replacement therapy for human lipoatrophic diabetes

10:05-10:30 Claire Levy-Marchal, Dr., INSERM Unit U 690, Robert Debré Hospital, Paris,
   Leptin resistance during leptin replacement: the French pediatric experience

10:30-10:55 Junya Toguchida, Prof., Dept. Tissue Regeneration, Field of Clinical Application,
   Institute of Frontier Medicine, KU
   Development of a new therapy for osteonecrosis utilizing bone
   marrow-derived mesenchymal stem cells

10:55-11:10 (Break)

11:10-11:35 Marc Bonneville, Dr., INSERM Unit U892, Cancer Regional Research Center,
   Nantes, France
   Cancer immunotherapy using gamma/delta T cell agonists

11:35-12:00 Nagahiro Minato, Prof., Dept. Medicine and Clinical Science, KUGSM
   Synthesis of pyrophosphate-containing compounds that stimulate
   Vgamma2Vdelta2 T cells: application to cancer immunotherapy.

12:00-13:00 (Lunch)
13:00-13:25 **Hervé Petite**, Dr., UMR 7052, University Paris Diderot(11th), Paris  
*Engineering bone: challenges and obstacles*

*Novel therapy for hearing loss: delivery of insulin-like growth Factor 1 to the cochlea using gelatin hydrogel*

13:50-14:15 **Jean-François Gautier**, Prof., INSERM CIC 9504, Saint-Louis Hospital, Paris  
*Ketosis prone type 2 diabetes and viral infection*

14:15-14:40 **Naoki Morimoto**, Assistant Prof., & **Sigehiko Suzuki** Prof.  
Dept. Plastic and reconstructive surgery, KUH, KUGSM  
*Preparation and clinical application of autologous fibroblast-seeded collagen sponge using animal product free media*

14:40-15:00 (Break)

---

(Presentation in Japanese)  
5th Symposium on Translational Research at Kyoto University (in Japanese)

15:00-15:30 **Junji Yodoi**, Prof., Inst. for Virus Research, KU  
*Project on Anti-MIF Protein Thioredoxin*

15:30-16:00 **Hidemasa Oh**, Visiting Associate Prof., KUH.  
*Project on Therapeutic Cardiac Stem Cells*

---

16:00-16.20 **Closing Remarks**  
**Fabien Calvo**, Prof., Director, Cancer Institute, INSERM, Paris, France  
**Masao Mitsuyama**, Prof., Dean, KUGSM, KU, Kyoto, Japan

16:20 Adjourn
